## Here's what vision trip participants have to say!

"When I visited Ecuador, my prayer was that God would open my eyes and heart. He did both, and He gave me a clearer picture of where I could personally fit in His picture of reaching people with the gospel both at home and abroad. This trip has changed my life, and the timing was in God's perfect plan."

*Karen Cox, St. Louis, MO*

"It never ceases to amaze me when we have a vision trip with AY people, how evident it is that God is alive and working all across the globe. He is doing a new thing in the new generations, and we want to be a part of it whether we are in Ecuador or in the U.S."

*Rich and Elisa Brown, Site Coordinators for Inca Link*

"I've grown to be missional within my local community, (NYC) but this vision trip expanded my heart for missions across the globe. I was in awe to see God use these ministries to meet both the spiritual and social needs of the community."

*Justin Guaman, Youth Pastor at New Life Fellowship Church, Queens, NY*
